

## Junior Designer - NY

Eyeview ([www.eyeviewdigital.com](http://www.eyeviewdigital.com)), an innovative video technology start-up, is looking for a talented and highly creative junior designer. The designer will have a key impact on Eyeview's innovative video advertising technology which is used by brands and advertising agencies worldwide. He/She will join the creative team in the New York office and will work on designing style frames for scenes in video commercials. The designer will also work on the company's marketing collateral and sales material.

### About the company

Eyeview, an innovative video technology start-up, helps brands better leverage their TV commercials in the digital medium. Eyeview's post production video technology enables brands to deliver personal and localized messages in real-time to their viewers, making ads more relevant and more effective. The solution keeps best in class TV broadcast quality for online campaigns and runs instantly on all players, publishers, devices, and screens. Eyeview is backed by Gemini Israel Funds, LightSpeed Venture Partners, Innovation Endeavors and Nauta Capital, as well as by private investors.
